PROFESSIONAL EXPERIENCE

Known Point Technologies | West Hartford, CT (Remote)   04/2021 - Present
Frontend Software Engineer
- Contributes to website by implementing React.js, Redux, and Bootstrap CSS elements (flexbox & grid) to create "squishy" designs that remained responsive across all device instances
- Meets with the UX/UI, Product, and Engineering teams utilizing an agile mindset for delivering, sustaining, and discussing the product roadmap with CTO
- Produce, maintain and modify website and user interface. Create tools that enhance user experience
- Routinely tests website and organizes bug bash sessions to test new releases for speed, performance and usability. Adding any issues or bugs that arise onto the roadmap in a Kanban format

OPEN SOURCE

TakeOff Application | Deployed Application: https://bit.ly/3b5WMGC | Github: https://bit.ly/3nRf5V0
- Creates the application with Material UI, applied dark-mode to reduce user eye strain
- Manages and designs with Adobe typekit to support local typographers
- Utilizes React Hooks to coordinate user flows without compromising scalability or efficiency

No-Waste-Kitchen | Deployed Application: https://bit.ly/3vRYtiD | Github: https://bit.ly/3vEfHjA
- Ensure a responsive web design using Bootstrap and Skeleton CSS Frameworks
- Incorporated Javascript APIs for client side storage of application data to render persistent data
- Provided creative vision and concept design for logo and wireframe. Developed mockups per wireframe

WORK EXPERIENCE

Porron & Pina; Hartford, CT   08/2018 - 03/2020
Food Runner
- Demonstrated leadership abilities by working diligently to increase customer satisfaction through managing expectations and strong interpersonal communication
